Disclaimer & Competent Persons Statement

GENERAL

The purpose of this presentation is to provide general information about Capricorn Metals Limited ("Capricorn" or the "Company"). This presentation is current as at 30th April 2025 (unless otherwise stated herein). The information in this presentation may change over time and Capricorn has no obligation to update or correct the historical content.

Distribution of this presentation (including an electronic copy) outside of Australia (including the United States) may be restricted or prohibited by law and any such restrictions should be observed. Any non-compliance with these restrictions may contravene applicable securities laws.

This presentation does not involve or imply a recommendation or a statement of opinion in respect of whether to buy, sell or hold securities in the Company. Any investor should make their own independent assessment and determination as to the Company's prospects prior to making any investment decision and should not rely on the information in this presentation for that purpose.

Further, this presentation is not, and does not constitute, an offer to buy or sell any securities in the Company. It is not intended to be, and is not, a prospectus, product disclosure statement, offering memorandum or private placement memorandum for the purpose of Chapter 6D of the Corporations Act 2001.

The information in this presentation is, or is based upon, information that has been released to the Australian Securities Exchange (**ASX**). Its content should therefore be read in conjunction with Capricorn's other periodic and continuous disclosure announcements lodged with ASX, which are available at www.asx.com.au.

Except for statutory liability which cannot be excluded, the Company, its officers, employees and advisers expressly disclaim any responsibility for the accuracy or completeness of the material contained in this presentation and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. The Company accepts no responsibility to update any person regarding any inaccuracy, omission or change in information in this presentation or any other information made available to a person nor any obligation to furnish the person with any further information.

FORWARD LOOKING STATEMENTS

This announcement may contain certain "forward-looking statements" which may not have been based solely on historical facts, but rather may be based on the Company's current expectations about future events and results. Such statements include, but are not limited to, statements with regard to capacity, future production and grades, estimated costs, revenues and reserves, the construction costs of new projects and projected capital expenditures, the outlook for minerals and metals prices and the outlook for economic conditions and may be (but are not necessarily) identified by the use of phrases such as "will", "expect", "anticipate", "believe" and "envisage". Where the Company expresses or implies an expectation of belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis.

However, forward looking statements are subject to risks, uncertainties, assumptions and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements.

Such risks include, but are not limited to resource risk, metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, as well as governmental regulation and judicial outcomes.

For a more detailed discussion of such risks and other factors, see the Risks section of this presentation, the Company's Annual Reports, as well as the Company's other announcements. Readers should not place undue reliance on forward looking information. The Company does not undertake any obligation to release publicly any revisions to any "forward looking statement" to reflect events or circumstances after the date of this announcement, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

The Prefeasibility Study referred to in this announcement is based on technical and economic assessments to support the estimation of Ore Reserves. Those Ore Reserves have been prepared by a competent person in accordance with JORC Code 2012 and all production targets are based solely on those Ore Reserves and all material assumptions relating to those production targets and related forecast financial information are set out in the announcement released on 19 April 2023 & the update on 15 November 2024.

This presentation uses mineral reserves and mineral resources classification terms that comply with reporting standards in Australia. These standards differ significantly from the requirements of the United States Securities and Exchange Commission that are applicable to domestic United States reporting companies and, therefore, are not comparable.

COMPETENT PERSON'S STATEMENT

The information in this presentation that relates to the preliminary feasibility study and its outcomes the Ore Reserve Estimate and the Mineral Resource Estimate for the Mt Gibson Gold Project is extracted from the ASX announcement released on 15 November 2024 "MGGP Ore Reserve Grows to 2.59 Million Ounces". The information in this presentation that relates to the Mineral Resource Estimate and Ore Reserve Estimate for the Karlawinda Gold Project is extracted from the ASX announcement released on 1 August 2024 "KGP Ore Reserve Increases to 1.43Moz's". The information in this presentation that relates to exploration results at the Karlawinda and Mt Gibson Gold Projects is extracted from the ASX announcements "Quarterly Exploration Update" on 26 April 2024, 24 July 2024, 25 October 24, 29 January & 28th April 2025. DNA of quiet delivery & exceptional returns

1995-2008 Equigold NL

- Projects in WA, Queensland and Ivory Coast
- 4 processing plants built and operated
- Numerous open pit mines developed & operated
- +1.6 Moz gold produced
- Workforce approx 300

2009-2018 Regis Resources Ltd

- Projects in WA
- 3 processing plants (10mtpa) built & operated
- Numerous open pit mines developed and operated
- +2 Moz gold produced
- Workforce approx 600

Combined value creation (1995 – 2018)

- **~A\$80M** combined market caps at commencement
- **~A\$120M** equity raised
- **~A\$400M** dividends paid
- **~A\$3,200M** combined market cap

DNA of quiet delivery & exceptional returns

Deep & sustained value delivered. How?

- Stick to what we know - gold, open pit, CIL, Australia
- Robust & achievable resource/reserve estimates crucial
- In house development and operating where possible
 - Repeat designs that have worked - fit for purpose and lowest cost
 - Amazing team of development & operating professionals
- Focus on cashflow
- Significant management ownership
- Minimise equity issue – modest debt & self funding

Application to Capricorn

- Identified Karlawinda as a robust, executable project
- Simplified plant design to maximise operating flexibility and throughput
- Debt financing
- CMM managed construction – low cost per throughput tonne v industry
- Identified similar opportunity at Mt Gibson
 - Genuine development opportunity at compelling acquisition cost
- Strong cashflow provides balance sheet strength to pursue growth options
- **Formula for success is well understood – repeat execution underway**

**Goal to (again) deliver superior returns
by building best in class, multi mine gold business**

Karlawinda Gold Project

**Capricorn's cornerstone asset
& template for development
of Mt Gibson**

Karlawinda Performance – 3 years of cash generation

Karlawinda Gold Project - Oz Produced⁽¹⁾ and Cash build⁽²⁾

3 years of cash build to 30 June 2024

- 351koz @ A\$1,250/oz AISC
- \$465 million operating cashflow
- \$396 million cash build²

Validation of CMM approach

It does what we said it would do...

- ✓ FS parameters & costings robust
 - ✓ Immediately cash generative
 - ✓ Industry leading cashflow per ounce
- ✓ Successful construction & development
 - ✓ Rapid commissioning & ramp up
 - ✓ First Qtr - 24.3koz <\$1,200/oz AISC
 - ✓ Consistent low-cost production since
- ✓ Strong conversion of operating cashflow to balance sheet
 - ✓ Minimal cost outside AISC

The successful study, design, development & operation of Karlawinda by our team has obvious application to the larger Mt Gibson Project

(1) Oz Produced is project to date 30 June 2024.

(2) Cash build represents cash to balance sheet prior to debt & hedging closure payments and exploration.

Works Underway

- 120-person Accommodation Camp upgrade
- TSF Design
- Permitting (submitted)
- Detailed Engineering Design – 35%
- Long Lead Commitments being made

Major contracts advancing:

- Power purchase agreement
- Construction labour

Long lead procurement:

- Mill
- Crusher Package
- Structural steel

Next Steps

Early Works:

- Plant earthworks
- ROM earthworks

KEP - a simple, executable & high value internal growth opportunity

Simple and Proven Process Flowsheet

4mtpa (Existing)

2.5mtpa (New)

Plant Expansion:

- 2.5mtpa increase in plant throughput
- Parallel three-stage crushing & ball mill circuit replicates current flowsheet
- Proven flowsheet with maximum flexibility
- Existing elution circuit & gold room utilised

Execution:

- Detailed engineering, procurement & permitting work underway
- Additional accommodation capacity will maximise productivity during construction
- Existing gas capacity sufficient for power requirements post expansion
- Targeting Q4 FY26 completion of construction

Unlocking the Endowment of the KGP Region

Regional focus

- Targeting camp scale deposits on Pilbara / Yilgarn craton margin
- Accelerate turnover of early-stage prospects
- Focus on Bibra analogues – gravity, magnetics & soil signatures

Sylvania project and Deadman Flat acquisition

- Decision to acquire the prospective Sylvania & Deadman Flat Project tenements covering approximately 2,010 square kilometers doubles regional tenure
- Hosts two known gold bearing faults; Baring Downs (*Star of the West, Bibra*) and Nanjilgardy (*Paulsen's, Belvedere, Mt Olympus*)
- Completes the consolidation of the highly prospective southern margin of the Sylvania Inlier

(1) Refer to ASX announcement 9/12/24 "Acquisition of Sylvania Project" & 23/1/25 "Acquisition of Deadman Flat Project" for full transaction details.

Mt Gibson Gold Project

**Robust & executable project
of genuine scale**

Mt Gibson Gold Project (MGGP) – the story so far

Unique opportunity – not a retread

- Prime location in Murchison, WA
 - 280km northeast of Perth & <10km off Great Northern Hwy
- Historical (1986-99) gold production >868koz, 14 pits avg depth 60m
- Closed when gold price cA\$450/oz & remained “off the grid” for 30 years

Capricorn delivering rapid progress

MGGP is a rare large scale Australian gold project development opportunity, in the hands of a proven team.

Unlocking the Endowment of the MGGP Region

Regional focus

- Systematic exploration of the targeting meaningful additional ore sources to the Mt Gibson operation
- Region is well defined structurally with gold occurrences in well known contacts
- Southern Yalgoo-Singleton Greenstone, hosting MGGP has had minimal modern geophysical surveys prior to CMM

Recent acquisitions

- Multiple targets highly prospective targets analogous and proximal to MGGP on 350km² of contiguous tenure
- Highest priority target <6km from existing MGGP resource
- Exploration and overflow capacity of a modern camp

MGGP tenure (blue) and recently acquired Ninghan Gold Project (maroon), Mummalo project tenements (green) & Kings Find Project tenure (magenta).

Notes:

1. Q3FY25A represents reported Quarter 3 AISC per source document.
2. Market Cap calculated by multiplying the Ordinary Fully Paid Securities on issue by the closing share price as of 30/04/2025.
3. Ordinary Fully Paid Shares on Issue sourced from ASX Announcements as per "Date of ASX Securities Quantity Release" column.
4. Proven & Probable Ore Reserves sourced from corresponding announcement, details slide 34.
5. Market Cap Reserve Multiple calculated by dividing the Market Cap by the Ore Reserve Estimate (proved and probable) on a per oz basis.
6. ASX listed "Mid-Tier" Australian producers, defined with less than 500kOz annual production, therefore excludes non-Australian producers and "Tier 1's" Newmont, Northern Star & Evolution.
7. First Quartile represents the 3 lowest AISC companies in the defined dataset of 12.
